

Mohammad Vaghefi

Assistant Professor of Hydraulic Structures,
Department of Civil Engineering,
Persian Gulf University, Bushehr, Iran.

29 August 2015

Dear Editor,

I wish to submit a new manuscript entitled “Experimental Investigation on Streamlines in a 180° Sharp Bend” for consideration by the “Acta Scientiarum. Technology”.

I confirm that this work is original and has not been published elsewhere nor is it currently under consideration for publication elsewhere.

The paper should be of interest to readers in the areas of civil engineering and all the majors related to river engineering, hydraulics, fluid mechanics and also the environment.

Suggested reviewers for this manuscript are as follows:

- 1- Professor Vladimir Nikora, University of Aberdeen. (v.nikora@abdn.ac.uk)
- 2- Professor Jie Zeng, South Florida Water Management District. (jzeng@sfwmd.gov)
- 3- Professor Anton J. Schleiss, Civil Engineering Institute, Switzerland. (anton.schleiss@epfl.ch)
- 4- Dr. Alessandra Crosato, Delft University of Technology, Netherlands. (a.crosato@unesco-ihe.org)
- 5- Dr. Arash Adib, Shahid Chamran University, Iran. (arashadib@yahoo.com)

Please address all correspondence concerning this manuscript to me at vaghefi@pgu.ac.ir.

Thank you for your consideration of this manuscript.

Sincerely,

Mohammad Vaghefi
