July 3, 2017

TO WHOM IT MAY CONCERN

This is to inform that all procedurs involving chickens used for the manuscript namely “ Carcass characteristics and meat quality of broiler breast meat (*Pectoralis major*) with crude glycerin inclusion in the diet” were done according to the Institutional Board (IRB) under the Ethical Principles for the Use of Animals for Scientific Purposes of Prince of Songkla University which was approved by the National Research Council in Thailand.

Yours respectively,

Wanwisa Ngamongsai

Associate Professor **Dr. Wanwisa Ngamongsai**
Head of Department of Animal Science,
Faculty of Natural Resources, Prince of Songkla University
